

SADISTIK EXEKUTION [Aus]

[Publié à l'origine sur **Dead Church** #8]

Voilà l'intie du groupe le plus brutal, le plus répugnant, le plus cinglé, jamais apparu sur Terre. Pour ne pas dénaturer les propos de **Dave Slave**, je les laisse en anglais. Si t'arrives pas à traduire, appelle **Nelson Monfort**, connard ! ! !

Hello ! What's up with the most brutal and twisted metal band ? What are the reactions towards the well-named [Fukk](#) ?

Many People have either Sold their Souls to GoD or **SATAN** Because of this AUDIO MONSTER we have Christians all over the world Concerned.

Did a tour happen ? Will you play in good ol'Europe soon ? How does a [SADISTIK](#) gig look for ? Total butchery with leather, spikes and fuckin'metal mayhem I suppose ! ! !

Leather in Australia is gay so we don_t like it. I'd rather wear raw vomit with an armband of hyperdermics for the live show in 2008 in Germany.

Osmose recently re-released the [Magus](#) album. What do you think about that release ? Will We are death fukk you be re-released too ?

The *Magus* wasn't just re-released it has Been remastered and Sounds proper. Where as we are death was recorded well from the start.

As I've asked to [BOLT THROWER](#), today reigns a tribute mania... I don't think that a tribute to **SADISTIK** is out... What do you think about this trend ? Your reactions if a tribute to your band was (will be ?) out ?

Who on Earth can play fast enough to do it - its not possible. There is only one **SAD-EX** FUKK YOU!

Let's speak about *Fukk*... It's unbelievable ! ! After more than 15 years your albums are more and more brutal ! How do you create your songs ? What in your life does influence you for doing it ?

I **DAVE SLAVE** personally meditate with an alarm clock making each second seem longer so I can squeeze in more notes per Second. Our muzik is like Kung Fu xtensive training. Not for humans!

What do you think about the wild aussie scene with such brutal acts as [DESTROYER 666](#), [ABOMINATOR](#), [GOSPEL OF THE HORNS](#), [MARTIRE](#) and so on ? What bands would you recommand to my readers ?

ALL AUSSIE BANDS ARE FUKKIN GOOD!

In the bio sheet , we can read « this band even hates their own

fan » ! It's funny but in my sense you can torture each fan horde, nobody will stop listening to your apocalyptic albums ahaha ! ! I'm sure you've met some fans, what do you think about them (us ? !) ?

Just because we spit and vomit on our audience it doesn't mean we don't like them - one time **rokk** brang a bagg of rubbish to a show - (that he took from his neighbours bin) and tipped it on the croud! If ther KUNTS don't like it they shoud not come to the front.

I'm pretty happy to send you some questions, stay brutal, stay crazy, stay as you are !

We are also the 2nd MOST XTREME Band on EARTH, 1st and 2nd , FAREWELL HUMANS.. [DOOMED AND DISGUSTING DAVE SLAVE](#)
